

Futuristic Solutions For Latest Health Hazards

As we live in a rapidly changing world of Technological advancements, it is important to update the risks to our health from ever newer products.

This **Radichack * Program** ensures that your homes or offices are scanned for Harmful Radiations with the latest EMF detecting gadgets.

Assessment, strategies & recommendations are given to overcome the Hazards.

Go Green
Save Planet Earth

Issued in Public Interest
towards a Healthier World

Know about Radiations

Cosmic Radiations:

Man kind has always known the direct influence of cosmic bodies on events that occur on earth. Now we have an in-depth scientific understanding of the influence of cosmic radiations on human physiology. Vasthu is the applied aspect of this knowledge that helps us to maximize our successes in life.

Man-made Electromagnetic Fields (EMF)

Life on earth evolved under geomagnetic fields and electromagnetic forces that have been constant for hundreds of millions of years.

All that changed a little over 100 years ago, when Thomas Edison built the first power station in New York City. Before 1900, the Earth's electromagnetic field was composed simply of the field and its associated micro pulsations, visible light, and random discharges of lightning.

Now we swim in a sea of energy that is almost totally man-made. The exposure of living organisms to abnormal electromagnetic fields results in significant abnormalities in physiology and function.

The cells of the brain and central nervous system are particularly sensitive to abnormal fields. For more info...

Symptoms of EMF Pollution

The most common manifestations are chronic excitation of the sympathetic nervous system (stress syndrome) and High blood pressure.

This phase also often includes, Headache, Dizziness, Eye pain, Sleeplessness, Recurring common cold, Irritability, Anxiety, Stomach pain, Nervous tension, Inability to concentrate, Cataracts, Reproductive problems & Cancer.

All these can be avoided by getting your premises checked by an Electromog Detector

Common Sources of EMF

Electric Power Systems, Televisions & Computers, Mobile Phones and Towers
Microwave Ovens, Fluorescent Lights
Electric Clocks, Razors & Hairdryers
Electric Blankets, Heating Pads & Water Beds, Electric Heaters. Mobile phones & its transmitters are arguably the **most radiation producing** technologies we have ever invented and

people are putting them by their heads-- arguably the **most sensitive** part of the body.

Geopathic Radiations:

Geopathic Stress is the commonly used term to refer to negative effects due to certain radiations from Earth. Identifying them and neutralizing them is important in preventing major illnesses and chronic diseases.

Services offered by Radichek Program

Scanning vital areas of your Home/Office for all kind of radiations that affect human physiology.

Recommended Interior designing including Bed position for EMF Free sleep and Desk Position for EMF free work/Study. Strategic counseling and logistics support for combating Radiation Sickness

**Get your Home and Office Scanned for EMF
Save on Medical bills and Suffering**
